

Scenario:

You are a student who is taking an English course. You are listening to an audiobook because you have a major test on a book tomorrow. In order to prepare for the test, you want to highlight some important parts of the text so you can go over them again to prepare for the test.

Task 1: Open a book and highlight a piece of audio.

Task 2: Open your previously highlighted audio sections and go over the quotes.

Task 3: Change the settings to accommodate how you would like to use the app.

Changes:

- 1) Add a place to buy books.
- 2) Add a place to make notes on a quote that has been highlighted.
- 3) Add different colors available for highlighting with.

Keep the same:

- 1) Book Selection page - it's easy to read and gives enough information.
- 2) Customization in the settings, audiobooks generally don't have enough customization.
- 3) Highlighting interface
